Delphi Focuses Efforts On Reaching Consensual Agreement

Company exploring workable labor solution and entering 'quiet period' until agreement is reached

Release Date: December 19, 2005

TROY, Mich. -- Delphi Corp. reaffirmed today its commitment to reaching a consensual agreement with its unions and General Motors on a comprehensive restructuring. The company also announced in light of GM's recent engagement and discussions with the UAW, Delphi is withdrawing its Nov. 15 proposal to its unions which had been based solely on Delphi's financial constraints. Following these discussions, Delphi said it will continue to work toward creating effective solutions acceptable to Delphi and its stakeholders, as well as to the UAW, GM and other unions. The company said that to further facilitate discussions it would defer the filing of Section 1113/1114 motions in the bankruptcy court until at least February 17.

The company's primary short-term focus is to reach consensual agreements enabling competitiveness for Delphi's core U.S. operations, by modifying current labor agreements and realigning Delphi's global product portfolio and manufacturing footprint to preserve the company's core business. The consensual agreements will help preserve the value of the company, provide viable jobs in the U.S. for employees and better serve customers globally. Delphi is committed to completing its transformation plan as quickly as possible and to that end, does not intend to comment further on discussions with the unions or GM.

The company noted that depending on the outcome of discussions, it may be necessary to return to its Nov. 15 proposal.

Additional information regarding Delphi's filing under the United States Bankruptcy Code, including access to court documents and other general information about the chapter 11 cases, is available online at <http://www.delphidocket.com>.
